

# Remember To Remember Me

Isak Danielson

I can feel you're slipping through my hands  
I've tried to break the silence  
Just wanna know now where we stand  
Cause I can see it in your eyes  
You don't believe a word I say  
Suddenly you're hard to reach  
It's like you're tired of trying  
I'm lost, can you come back to me  
Tell me what you're hiding

Please don't let me go  
We've been wrong before  
Don't want to lose the memories  
Remember to remember me  
Thought I'd let you know  
You only have to call  
I'll remind you how we used to be  
Remember to remember me

Ohhh  
Don't want to lose the memories  
I remind you how we used to be  
Ohhhh  
Remember to remember me

I don't like the part of moving on  
I hate to say goodbye  
Can't stand this bedroom all alone  
When everything reminds me of you laying by my side

Please don't let me go  
We've been wrong before  
Don't want to lose the memories  
Remember to remember me  
Thought I'd let you know  
You only have to call  
I'll remind you how we used to be  
Remember to remember me

Please don't let me go  
We've been wrong before  
Don't want to lose the memories  
Remember to remember me  
Thought I'd let you know  
You only have to call  
I'll remind you how we used to be  
Remember to remember me

Ohhh  
Don't want to lose the memories  
I remind you how we used to be  
Ohhhh  
Remember to remember me
