

Remember

Isak Danielson

Dark nights and a face like yours, I don't forget
Why do You feel the need to go just yet
When I cover my eyes, I see a picture in my mind
Of you smiling and I find nothing to regret

Remember, remember
How we used to love in September nights
You say remember, remember me
I said I love you forever, don't leave

Now in life you hold your heart for someone else
Caught in your fire but my love will never melt
So when I think about life
You're the only one I'd like
To be lost with and then found, baby, don't forget

Remember, remember
How we used to love in September nights
You say remember, remember me
I said I love you forever, don't leave

Remember, remember
How we used to love in September nights
You say remember, remember me
I said I love you forever, don't leave

But if you say you love me babe
I'll be the one to run away
Before you say, you love me baby...

Remember, remember
How we used to love in September nights
You say remember, remember me
I said I love you forever, don't leave

You got to still
Remember, remember
How we used to love in September nights
You say remember, remember me
I said I love you forever, don't leave

Remember, remember (you said remember me)
Remember, remember (you said remember me)
Remember, remember (you said remember me)
Remember, remember (you said remember me)

You love me babe
I'll be the one to run away
Before you say, you love me baby...
