

Silence

Isak Danielson

It's hard to look
It takes a lot of courage to see
But open your eyes
You'll be standing next to me
Forget the words they don't know what they're saying
To save us all it takes a lot of praying

We have to
Speak into the silence
We never wanted violence
We have to stay, unite
No one left outside
For us to overcome the things that we have done
I want to see the change before I die and lose my voice

It's time to act
Wake up and just realise the fact
That what we've done
We have to recover from
Cannot wait to save the things that we've broken
Find the strength to let your mind be spoken

We have to
Speak into the silence
We never wanted violence
We have to stay, unite
No one left outside
For us to overcome the things that we have done
I want to see the change before I die and lose my voice

I want to live 'till I'm 95
I want my children there right by my side
I want snow in the winter sun
We need to realise what has begun
I want to live 'til I'm 95
I want my children there right by my side
I want snow in the winter sun
We need to realise what has begun

Speak into the silence
We never wanted violence
We have to stay, unite
No one left outside
For us to overcome the things that we have done
I want to see the change before I die and lose my voice
