

Sweat

Isak Danielson

Fill my lungs, pour me out
One more sip better now
Rosé dream touching me
Let me feed your affection

Baby, you're the waves and I'm lying on the shore
Waiting for emotions that, I adore

I wouldn't mind to take a dip in your pool
I head first, like a boy with no rules
I, how can I be sweating when your water's so cool
I, keep sweating, I

Baby your paradise
No more rules, until I'm dried
Diving deep I feel your chest
No more blues, I'm obsessed

Baby, you're the waves and I'm lying on the shore
Waiting for emotions that, I adore

I wouldn't mind to take a dip in your pool
I head first, like a boy with no rules
I, how can I be sweating when your water's so cool
I, keep sweating, I

I want to see you sweat
I wanna act a fool
We need to get this pressure off of you
I want to see you sweat
I wanna burn my rules
Until I'm lying face down in your pool

Rose dreams touching me
One more sip pretty please
You and me, I'm better now

I wouldn't mind to take a dip in your pool
I head first, like a boy with no rules
I, how can I be sweating when your water's so cool
I, keep sweating, I

I want to see you sweat
I wanna act a fool
We need to get this pressure off of you
I want to see you sweat
I wanna burn my rules
Until I'm lying face down in your pool
