

(Stop playin' with them, RIOT) Uh

Ayy, damn, life so crazy
I've been gettin' to the money on a daily
I've been gettin' to the bag, I've been gettin' to the racks
I be talkin' to the chat, they made me
Skin black, but I'm not Slim Shady
All these girls wanna have my baby
You've been singin' all my songs, since the eighties
I just wanna see you dance, go crazy
I just wanna see you

I know it was you
I know it was you
Them nights ain't nothin' new
It was another you
Another you
Another you

Would you give me another clue? I keep passin' up on the truth
Drinkin' Forty like apple juice
On the moon
We be bussin' like I'm a troop
On the moon
We be bussin' like I'm a troop

I know it was you
I know it was you
Them nights ain't nothin' new
It was another you
Another you

I know it was you
I know it was you
