

# It's Not Easy Being Human

Islander

They keep pointing at me  
Telling me what's wrong with me  
They keep laughing about me behind my back  
I need a little sunshine and daydreams  
A little sunshine and daydreams

It's not easy being human  
It's getting harder to breathe in this world  
It's not easy being human  
Aren't you dying to feel alive?

Can you look me in the eyes  
And know how I feel inside  
The same mistakes you have are mine  
Can't you feel my heart racing

Feel the rhythm  
It beats the same as yours does  
Different melody with the same wrongs  
Yeah we all sing the same song

It's not easy being human  
It's getting harder to breathe in this world  
It's not easy being human  
Aren't you dying to feel alive?  
It's not easy being human  
It's getting harder to see in this world  
It's not easy being human  
Aren't you dying to feel alive?

Please have grace and mercy on me  
Have grace and mercy  
Please have grace and mercy on me  
Have grace and mercy  
(Please have grace and mercy on me  
Have grace and mercy)

It's not easy being human  
It's getting harder to breathe in this world  
It's not easy being human  
Aren't you dying to feel alive?  
It's not easy being human  
It's getting harder to see in this world  
It's not easy being human  
Aren't you dying to feel alive?
