

The world don't stop for anyone  
It can't feel your pain  
It doesn't care what you're going through  
It's driving me insane

When will it end?  
When will it all end?  
When will it end?  
When will it all end?  
When will it end?  
When will it all end?  
When will it end?  
When will it all end?

You're afraid  
You're afraid  
I can see it in your eyes  
You're afraid  
You're afraid  
I can see it in your eyes  
You're afraid  
You're afraid  
I can see it in your eyes  
You're afraid  
You're afraid  
I can see it in your eyes

The world don't stop for anyone  
It can't feel your pain  
It doesn't care what you're going through  
It's driving me insane

When will it end?  
When will it all end?  
When will it end?  
When will it all end?  
When will it end?  
When will it all end?  
When will it end?  
When will it all end?

How does this work?  
I can't let them know  
They can't find out  
I'll pretend to be grown  
None of us are alone  
It's not easy to admit

Will your face be mine?  
Will I stand in line?  
Will I feel your pain?  
Does it always rain?  
It's so insane

The world don't stop for anyone  
It can't feel your pain  
It doesn't care what you're going through

It's driving me insane  
The world don't stop for anyone  
It can't feel your pain  
It doesn't care what you're going through  
It's driving me insane

When will it end?  
When will it all end?  
When will it end?  
When will it all end?  
When will it end?  
When will it all end?  
When will it end?  
When will it all end?

You can't just make it go away  
I can tell that you're afraid  
I'm left with no words  
Insecurities and self doubt  
I disappear, it's lights out  
Imposter syndrome, counterfeit  
I can't find my way  
I cant deal with it

Who do you want me to be?  
What am I supposed to see?  
If everyone keeps pushing me  
You'll find yourself lying on the ground  
With your face down  
You'll be lying on the ground  
With your face down  
You'll be lying on the ground  
With your face down  
Lying on the ground  
With your face down

You better get out of my face  
Better get out of my face  
Better get out of my face  
(I'm telling you)  
You better get out of my face  
Better get out of my face  
Better get out of my face  
(I'm telling you)  
You get out of my face  
Get out of my face  
Get out of my face  
(I'm telling you)  
You get out of my face  
Get out of my face  
Get out of my face

The world don't stop for anyone  
It can't feel your pain  
It doesn't care what you're going through  
It's driving me insane

When will it end?  
When will it all end?  
When will it end?  
When will it all end?  
When will it end?  
When will it all end?

When will it end?  
When will it all end?

Who do you want me to be?  
Who am I supposed to be?  
...
