

Last Forever

Islander

Some things just take some time
I dream of something better
I can't get you off my mind

And here I go again
Dreaming of the end
The beginning of my forever
No fear
I'm wanting more and more of what I have in store
A dream I've had since before I was born

Some things don't last forever
Some things just take some time
I dream of something better
I can't you off my mind
Some things don't last forever

And here I go again
Dreaming of the end
The beginning of my forever
No fear
I'm wanting more and more of what I have in store
A dream I've had since before I was born

Some things don't last forever
Some things just take some time
I dream of something better
I can't you off my mind
Some things don't last forever
