

New Colors

Islander

I desired dust in the ground
While not knowing on the surface there is light
I was obsessed with the shadows
My desires were all I knew

It was all I knew!

So many things I do not understand
I cannot comprehend how I see

New colors
All around me. I see
New colors
Inside this old world I see
New colors
All around me. I see
New colors
Transforming me... tonight

I was pulled from the darkness
Dipped in fire, and given light
I was told I am something and loved
When I was nothing!

So many things I do not understand
I cannot comprehend how I see

A new heart, a new day, a new way to see

New colors
All around me. I see
New colors
Inside this old world. I see
New colors
All around me. I see
New colors
Transforming me...

Tonight...
Transforming me
Tonight...
(All around me)

Without you I'm just a diamond
A rock stuck in the earth
Without you I'm just a headstone in the dirt

Without you I'm just a diamond
A rock stuck in the earth
Without you I'm just a headstone in the dirt

Without you...

I'm just a diamond!
I'm just a diamond!
