

Serpents & Daggers

Islander

There is blood on the angel wings
From serpents and daggers
Silver and poison
From chasing these diamonds

There is blood on the angel wings
From serpents and daggers
Silver and poison
From chasing these diamonds

Serpents and daggers!
Serpents and daggers!
Serpents and daggers!

Glass casket, don't try to mask it
Make it visible so all of em' can see
Decaying flesh, and self destruction
All these scars and repercussions

My skin is melting right off my body
Decaying, rotting
My skin is melting right off my body
Decaying, rotting

Is this the murder knife scene you wanted?
This can't be the dream you wanted

There is blood on the angel wings
From serpents and daggers
Silver and poison
From chasing these diamonds
Chasing these diamonds!

There is blood on the angel wings
From serpents and daggers!

Serpents and daggers!
Serpents and daggers!
Serpents and daggers!

See the blood drain from my veins
Scars from the past, they still remain
Run for cover, bombs away
To live tomorrow, I'll die today

(My skin is melting right off my body)
(My skin is melting right off my body)
My skin is melting right off my body
My skin is melting right off my body
My skin is melting right off my body
My skin is melting right off my body

Is this the murder knife scene you wanted?
This can't be the dream you wanted

There is blood on the angel wings
From serpents and daggers

Silver and poison
From chasing these diamonds
Chasing these diamonds!

(There is blood on the angel wings
From serpents and daggers
From serpents and daggers
There is blood on the angel wings
From serpents and daggers
From serpents and daggers)

There is blood on the angel wings
From serpents and daggers
Silver and poison
From chasing these diamonds
Chasing these diamonds!

There is blood on the angel wings
There is blood on the angel wings
From serpents and daggers!
