

## No Crying

Islands

I walk right in  
I sat right down  
Listenin' to the saddest song  
If I don't feel bad is there something wrong

I sympathize  
I synthesized  
A teardrop from my tired eyes  
But I don't feel sad  
And I cannot cry

And I won't cry for you  
'Cause I'm not able to  
She said I don't mind  
Instead think of why

The chorus wept  
The bridge caved in  
The verses stung your perfect skin  
But I don't feel like  
It's touched my soul

So I climbed right in  
Listenin'  
I got so close you'd think I'd been  
Haunted by the teary eye

But I won't cry for you  
'Cause I'm not able to  
She said I don't mind  
Instead think of why

I heard your voice sing just one note  
The sweetest sound came from your throat  
And I think I'll cry just a little while
