

Sad Middle

Islands

The whole
The sad middle
The FDA put you away
There was more, just a little
The whole
The sad middle

Chopped a tree
It became a log
A diary
Of something wrong

Finally
You wrote it down
So remember me
When it hits the ground
When it hits the ground

You wrote
Fell into
The note you couldn't hit if you wanted to
You wrote
Fell in the hole, the sad middle

La la la la la la la la la la

The whole
The sad middle, middle
The sad middle
