# Save Me

Ismail Izzani

Remember when we tried so hard
But we felt like giving up
Everybody has their stories
Sometimes we will learn
From the past we realize
Everything we did in the world
Is just for awhile

If you stay with me
Everything's gonna be alright
Stay with me
Then I'll be fine

Because I just need you and my body
Cause only you could save me
Because I just need you and my body
Cause only you could save me

I don't know what I'm doing right now
But I'm never gonna give it up
And I know that you're the one for me
I know I won't let you down
And turn my life around
Everything we did in the world
Is just for awhile

If you stay with me
Everything's gonna be alright
Stay with me
Then I'll be fine
Stay with me
Everything's gonna be alright
Stay with me
Then I'll be fine

Because I just need you and my body
Cause only you could save me

If you stay with me
Everything's gonna be alright
Stay with me
Then I'll be fine

Right now right now
What is left to do
Right now right now
I just have to prove
In time I'll see what it's for
In time I'll see what this is all for

Because I just need you and my body
(I just need you and my body)
Cause only you could save me
Because I just need you and my body
(I just need you and my body)
Cause only you could save me
Because I just need you and my body

```
(I just need you and my body)
Cause only you could save me
```

```
(I just need you and my body)
Cause only you could save me
```
