

Hey World

Isobel Campbell

Hey world
What you all about?
Hey world
Am dying to find out
Hey world
Gonna let it all hang out
Hey world

Every now and then inside and out there when things get crazy
(Hey world)
Nothing I can say, do or even think, you still amaze me
(Hey world)
Still I toss and turn and I can't sleep at night, no
The answers plain this upstate village scene is too uptight you

Hey world
Going inside out
Hey world
I scream and then I shout
Hey world
I'm ready to find out
Hey world

Hey world
Don't wanna be found out

Hey world
The one they talk about
Hey world
Gonna let it all hang out
Hey world

Every now and then inside and in here when things get crazy
Nothing I can do, say or even think, you still amaze me
Still I toss and turn and I can't sleep at night, no
Fall to my knees when I can't breathe and geez Louise don't go with the flow

Hey world
Don't wanna be found out
Hey world
The one they talk about
Hey world
The one they laugh about
Hey world

(Hey world)
(Hey world)
(Hey world)
(Hey world)
