

Take This Poison

Isobel Campbell

Take this poison, drink it down
It's everywhere, it's all around
Hear the word out on the street
May we all find our feet

There's no reason, down or out
Incomplete, work it out
Take this poison, drink it down
It's everywhere, it's all around

I don't care about a thing you're saying
I don't care baby, cause I'm not staying
Take this poison, drink it down

Feel the world out on the street
Pray that we find our feet
Voice the reason, rough it out
Intention's good as tensions mound

I don't care about a thing they're saying
I don't care baby, cause I'm not staying
Take this poison, drink it down

Breathing now, breathe out fear
Drink it down (Something's going on here)
It's everywhere (Breathe out fear)
It's all around (Something's going on)

Take this poison (Breathe out fear)
Drink it down (Something's going on here)
It's everywhere (Breathe out fear)
It's all around (Something's going on)

Take this poison (Breathe out fear)
Drink it down (Something's going on here)
It's everywhere (Breathe out fear)
It's all around (Something's going on)
