

# The Heart of It All

Isobel Campbell

United we stand  
Divided we fall  
Gotta get to the heart of it all  
Calling long distance  
Answer the call  
Gotta get to the heart of it all

The heart of it all  
The heart of it all  
The heart of it all  
The heart of it all

We poison the ocean  
And frack the earth  
Raise your voice tell them what it's worth  
What use am I  
Without you or you?  
And we got so much work to do

The heart of it all  
The heart of it all  
The heart of it all

The heart of it all  
We're part of it all  
Part of it all  
We're part of it all  
The heart of it all

Gandhi and Buddha  
Martin Luther King  
Had a dream for all hearts to sing  
If you open your heart  
What might we find?  
We are love  
Let's make right this time

The heart of it all  
The heart of it all  
The heart of it all  
The heart of it all  
We're part of it all  
Part of it all  
We're part of it all  
The heart of it all
