

Journey

Israel Vibration

such such such a long journey
enough patrol in a di road
destiny is our burden
me carry, me carry heavy load

often times we stumble and fall
but pick yourself from off the ground
dust yourself up, start all over
start all over again
why black man still a cry
after tears we still feel pain
and why should we complain while in the end
we still gettin the blame
because of the color of our skin
dem a gwan like we have committed a crime
because because of the corrupt system is like we down here
down in a prison serving time

such such such a long journey
enough nough patrol in a di road
dea destiny is our burden
we carry, carry heavy heavy load

racism will never ever end
yet you come pretend you are we friend
you are a hypocrate
there ain't no love in this society
their ain't no justice for we(no way)

such such a long journey
nough patrol in a di road
your destiny is our burden
we carrying, carrying heavy heavy load

racism will never end
but you come come pretend you are we friend
there's no love in this society(no way)
there's no justice for people like we eh ehh

such such such a long journey
nough patrol in a di road
your destiny, our burden
carrying, heavy heavy heavy heavy load

such such such a long journey
such such such a long journey...
