

## Life Is Real

Israel Vibration

A me man checking out the block  
A me man Staying with the flock  
You see man gathering the facts  
Mister big tree I am the small axe

Apple is my name, the burning flame  
Harasing this lion won't make I tame

You see man, they just don't care  
More Babylon force  
Giuliani swear  
War in the street system on the attack  
And they targeting me did Solomon say him black.

They give us Columbus and Marco Polo  
And fight 'gainst we great Africano.

Life is real. Black people treated differently  
Iya feel rejected by society.  
A search man find my identity  
Reverse man protected by his majesty  
I'm saying

Hey, life is real and it's the way I feel.

Hey, you treat I with cruelty  
You treat I with impunity  
You treat I with partiality  
Said I'ma Black but I'ma comely

Hey, 'cause I'm the apple of father eye
