

My Master's Will

Israel Vibration

It's my master's will... I see the sun shining today. Don't know what is going to bring. You see I give thanks... come what may.

Of my missal master, I should thankfully receive. Ain't gonna sit it down here crying, worrying going on free.

I give a little here, I give a little there and keep a little for myself. Life is so unfair, yet is good to share when you trying to help someone else.

Never see the breeze behind the air, you couldn't hold who you calling for and there's nothing you can do Everything is a one world's often view.

I give a little here, I give a little there and keep a little for myself. Life is so unfair, yet is good to share, but it's nice to help someone else.

Bring the bread, a sip of tea, a fish for you and a fish for me. I guess there's nothing you can do, everything is a one world's often view.

It's my master's will... I see the sun shining today. Don't know what is going to bring. You see I give thanks..... Come what may.

Of my missal's master I shall thankfully receive Ain't gonna sit down here, crying, worrying on free.

I give a little here, I give a little there and keep a little for myself. Life is so unfair, yet is good to share, and it's nice to help someone else.

Never see the breeze behind the air, you couldn't hold who you calling for and there's nothing you can do Everything is a one world's often view.

I give a little here, I give a little there and keep a little for myself. Life is so unfair, but is good to share, and it's nice to help someone else.

It's my master's will... I see the sun shining today. Don't know what is going to bring. You see I give thanks for what's coming to me.

I give a little here, I give a little there and keep a little for myself. Life is so unfair, but is good to share and it's nice

e to help someone else (repeat).
