

Rebel for Real

Israel Vibration

I am a rebel for real
You got to know how I feel
So brutalize I with music
If it's a song with a meaning
Chastise I with music
If it's a cry from the heart
There's got to be a message in the music
To soothe the soul of the savage beast
There's got to be a message in the music
So the knowledge of the children will increase
Raped by those vicious antiSacons:
Drake, Peg Leg and the guy Morgan
We don't got no mineral
Them done nyam out
We bauxite and burn down the ganja field

But no matter what the game they try to play
We got something they could never take away
So brutalize I with music
If it's a song with a meaning
Chastise I with music
If it's a cry from the heart
Marley knew he had a name
To take reggae straight to the hall of fame
We don't got no mineral
Them done nyam out we bauxite
And burn down the ganja field
But no matter what game they try to play
We got something that they could never take away
