

Saviour In Your Life

Israel Vibration

There's a Saviour in your life
There's a saviour in your life
I know you will survive.
For there's a Saviour in your life

No man don't want to be on the down side of life
He rather to see much prosperity
He works so hard to make all ends meet
And most of the time, you're upon your feet
Day in. Day out.
You've got to be on the route
Just because you want your own,
So go on and look it, yeah.

People are searching for ways
To uphold and strengthen their days
Wicked men was there and see
So he say he won't let it be
Won't let it be

What is left for you to do
Because they're all over you
Trying to hold you down, down.

Don't put your foot too deep
In a strange place
For you don't really know
What is the actual taste
This dog eat dog situation
Every man for himself.
You can hear the people them a bawl
In need of help.
