

You Never Know

Israel Vibration

You never ... you never know.
You muma never teach you back a yard.
So when YOU left and come abroad, now.
You start to holler, say it hard.
You even call on Jah Lord's name.
Cause you a look little fame. / But you lost at your own game.
Things doesn't seem the same. / You've got no one to blame.
And I know that did have fe go now.
And although I know the vibes still have to flow.
Find yourself in another land.
Caught up in a different situation.
Man you've got to work a plan. / To survive in this ya society.
Most people living inna poverty.
Open your eyes and surely you will see.
What to be just got to be. / You got to stand and face reality.
You never know ... you never know.
Don't be like a sitting duck. / Waiting your time to get pluck.
Make your move and try to improve.
Hold your head up and trod as a man.
Don't get stuck in the muck. / Try your luck
Make a lot of bucks.
Make your move and try to improve.
You left from you yard. And you reach up abroad.
You never know what a gwan back a yard.
The system have you moving so slow.
Sometimes you want to let go.
Having it so hard ... since you left from your yard.
