

Rain

Issues

You're the kind of person whose cup is half empty and I
Can't stand the thought of the laughs that we never share
Don't wanna think of the bad but there's plenty if I
Have a parade I know you'll be there

Rain rain rain go away
I sit and wait for you to change
But you never change, never change

Why the hell is it raining so much
Why are you always clouding my mind
Why the hell is it raining so much
I'm just tryna have a good time

Somebody said lighten up it sounds easy but you
Haven't had any sun in a while
You always ruin the fun before it's even begun
It's so impossible to make you smile

Why the hell is it raining so much
Why are you always clouding my mind
Why the hell is it raining so much
I'm just tryna have a good time

This time I
Will let it wash you out of my mind
Why the hell is it raining so much
I'm just tryna have a good time

Rain rain rain go away
I sit and wait for you to change
But you never change, never change

Why the hell is it raining so much
Why are you always clouding my mind
Why the hell is it raining so much
I'm just tryna have a good time

Why the hell is it raining so much
Why are you always clouding my mind
Why the hell is it raining so much
I'm just tryna have a good time

This time I
Will let it wash you out of my mind
Why the hell is it raining so much
I'm just tryna have a good time

Rain rain rain go away
I sit and wait for you to change
