

For Safekeeping

It Bites

This distant light, helps to remind me So it keeps me in check
but not all of the time It goes straight to the nerve at the back
of my mind And it helps me retain what I openly give to you
For safekeeping

Chorus: It's only safekeeping now I will refrain from the words
that I say to you That's if you want me to my dear Cos we're only
safekeeping now I will return all the words that I took from
you And I broke in two these things that help me

These words collide, help to decide me So they keep me awake but
not all of the time They go straight to the place in the back
of my mind And I never forget what I openly take from you For
safekeeping

(Chorus)

Keep it in mind with her all of this time With the safety in words
that we choose to entwine Pull at the ends and you'll see them
unwind They are softly spoken Keep me in check but not all
of the time Give me a space and just let me decide How can you
forget when I openly cry It is for safekeeping

I could pretend as I swallow my pride Because it's perfectly clear,
are you reading the signs? So must I repeat for the millionth
time, It is for safekeeping?

It's just for safekeeping now I will refrain for the words that
I say to you That's if you want me to my dear Cos we're just
for safekeeping now I will return all the words that I took from
you And I broke in two these things that help me
