

Once Around The World

It Bites

It's a good morning - drag my head up from the eider feathers
Put on my radio and morning robe - caesar for the day
It's a good morning - lay the table French cuisine, morning roll and paper
I'm reading today what's yesterday and heading for the back pages
Outside, Sunny fields and apple trees. The dragon flies and the bumble bees
The cherry skies and happy season Laughing birds have reason - cos it's
A beautiful day and my eyes disbelieve what they're seeing.
Before I know it I'm walking the dog - past the butcher's past the store
Isn't it ridiculous is the theme of the day, madama De Grabo buys imported furs
You know and the grocer bows his pink skinny head in every town there's a man
In a wheelchair in every town there's an optical illusion

Out of my head what the hell's going on? Watching - Turning the road that lies
Before me is the key to my day, I'm out on the road and no one can stop me. into
The safety of my car where no one can break me - Motorway - Motorway

Out in the car park the bodies are mounting bets are amassing, the money's being
Counted the children are playing. The adults confiding Now crack the champagne
What's the year? Sounds like 1924 down here, In the good old Summertime. I broke
my heart down here in the good old major's home - Da da da da - da da da da
Crack the Champagne, shed a tear, feels like 1924 this year, in the great british
Summertime. I lost my love down here, in the good old major's home

The scottish have invaded our lands again - delving inside, take a piece of turf home
To show their wives, Bring in the army - Not of the tartan kind
Give them all a prize

6 to 4 is on the run, The odds are on. Stephen Caution jumped the gun now he's gone
Willy Carson - done for arson, for burning up the track, the odds are wrong

It's been a good day and at last - I'm on my way. To keep my heart warm.

I'm sure you enjoyed my day
