

Turn Me Loose

It Bites

Oh baby I can see
What you're doing to me
It came as no surprise
To see you both pass by

I should have known when he answered the phone
You said it's your brother but lovers you turned out out be
Oh can't you see

You gotta turn me loose
Been keeping me hanging on too long
You gotta turn me loose
Been keeping me hanging on

And now as time goes by
And I ask myself why
You left your presence behind 'cos you're still on my mind
(oh why)

The thought of you in another man's arms
Hurts me deep inside to realise it was meant to be
Oh can't you see

You gotta turn me loose
Been keeping me hanging on too long
You gotta turn me loose
Been keeping me hanging on

I guess you just don't want to see me

You gotta turn me loose
Been keeping me hanging on too long
You gotta turn me loose
Been keeping me hanging on
You gotta turn me loose
Been keeping me hanging on too long
You gotta turn me loose
Been keeping me hanging on
