

## Seasons

It Looks Sad.

I've been watching the seasons change  
I've been waiting to see your face  
You've been calling out my name  
Call me outside, let's leave this place

Fall apart again, I'll fall right in  
Fall apart again, I'll fall right in  
Fall apart again, I'll fall right in

You feel like a fever dream  
I see you week after week  
You make me weak at the knees  
Tell me everything  
Tell me everything you see  
I miss those cold mountain peaks  
I miss those cold, cold springs

I've been waiting for you  
You've been watching me  
I've been sitting calmly  
You've been quietly learning  
Fall all over again  
I fall right back in  
Fall all over again  
I'll fall right back in

You don't know just what I did  
To make you feel just like this  
Years ago I would've ruined it  
I ruined it

I've been waiting for you  
You've been watching me  
I've been sitting calmly  
You've been quietly learning  
I've been waiting for you  
You've been watching me  
I've been sitting calmly  
You've been quietly learning

Fall all over again, I'll fall right back in  
Fall all over again, I'm drowning in it  
Fall all over again, I'll fall right back in  
Fall all over again, I'll fall right back in  
Fall all over again, I'll fall right back in
