

You Don't Exist (Rough)

It Looks Sad.

I see you're gonna forget
Everything we did
You said I'll forget
What we did
You know you broke, my heart that night
You know that you broke
My heart that night

Surreal
You don't
Till I found out, how
How to be alone

If you exist
Chances are I ruined it
If I pretend
It probably won't sink in
You know you broke, my heart that night
You know that you broke
My heart that night

So slow
You don't
Till I found out, how
How to be alone

If you exist, chances are I ruined it
If you exist, chances are I ruined it
