

Upside Down

Italobrothers

Wish the rain could wash away the past
Wish the sun came out for me
I wish that you'd be here to make it shine
Stay forever, be just mine

Wish that I could lean on you again
I wish that you would be with me
I wish that sunlight helps me find our way
Gets you back to me to stay

Over and over I'm upside down
Help me turn my life around
'Cause over and over I'm upside
Why don't you come back home?

Over and over I'm upside down
Help me turn my life around
'Cause over and over I'm upside
Why don't you come back home?

Wish the rain could wash away the past
Wish the sun came out for me
I wish that you'd be here to make it shine
Stay forever, be just mine

Wish that I could lean on you again
I wish that you would be with me
I wish that sunlight helps me find our way
Gets you back to me to stay

Over and over I'm upside down
Help me turn my life around
'Cause over and over I'm upside
Why don't you come back home?

Over and over I'm upside down
Help me turn my life around
'Cause over and over I'm upside
Why don't you come back home?

Over and over I'm upside down
Help me turn my life around
'Cause over and over I'm upside
Why don't you come back home?
