

# Waiting For The Waves

Itchy Poopzkid

What do you have to say?  
I know it anyway  
You're not the one to blame  
Liars always repeat their game  
Get on the podium  
To spread your valium  
It's all too much for me  
Please get away or leave me be

And I am waiting for the waves now  
Hopefully they will wash it all away  
I'm longing for that day  
I'm waiting for the waves and somehow  
None of the lies are gonna stay

Let 'em break  
Right down on it all  
Let 'em break  
Now who is standing tall  
Surrender defender  
You don't need to tender  
Anything to me  
Or anyone

Our trust is gone  
And we'll move on

Make up another name  
Despaired and oh so lame  
Fake credibility  
Wish to consign it to the sea  
Hey mister you got nerve  
Now get what you deserve  
Can't wait to hear the waves  
Your time is up now go away  
You won't lead us astray

Let 'em break  
Right down on it all  
Let 'em break  
Now who is standing tall  
Surrender defender  
You don't need to tender  
Anything to me  
Or anyone

Our trust is gone  
And we'll move on  
Our trust is gone  
And we'll move on

I could forgive  
But I just cannot forget  
What you did  
Way too late to regret  
I could forgive  
But I just cannot forget

What you did  
Way too late so now

Let 'em break  
Right down on it all  
Let 'em break  
Now who is standing tall  
Surrender defender  
You don't need to tender  
Anything to me  
Or anyone

Our trust is gone  
And we'll move on  
Our trust is gone  
And we'll move on
