

# After All This Time

Itchyworms

Walking away  
From what I thought would never end  
Looking okay  
But deep inside I'm lost in time

It's never over  
What I feel for you won't die[?]  
We're all getting older  
But my hearts keeps asking why

Cause I've thrown away my lucky stars  
And my wishes don't come true  
I've been looking up to heaven  
While I'm crying over you  
Cause I can't forget the good times  
We've had when you were mine  
I just wonder if you need me still  
After all this time  
I just wonder if you need me still  
After all this time

You turned away  
I called you back but it's no use  
What can I say?  
Now, I know I got nothing to lose

Sometimes I still miss you  
I just wanted you to know  
I can't be without you  
'Cause my heart never stop  
I just had to give up

So I've thrown away my lucky stars  
And my wishes don't come true  
I've been looking up to heaven  
While I'm crying over you  
Cause I can't forget the good times  
We've had when you were mine  
I just wonder if you need me still  
After all this time  
I just wonder if you need me still  
After all this time

I wanna know if you stopped trying  
You're part of all that I've been through  
Where all these years of hoping for you  
Just a waste of time  
Cause whatever I do  
It's no good without you

Cause I've thrown away my lucky stars  
And my wishes don't come true  
I've been looking up to heaven  
While I'm crying over you  
Cause I can't forget the good times  
We've had when you were mine  
I just wonder if you need me still

After all this time  
Wonder if you need me still  
After all this time...
