

Caveman Do

Itchyworms

I wanna be with you
Every other day
Five minus three is two
I wanna be with you
The more I see your face
The less I wanna kill myself
I'm taken from disgrace
The more I see your face

Water falls from the walls
But I'll plug the holes for you
If your state is overweight
Then I'll carry you

What does a caveman
What does a caveman do (without you)?
What does a caveman
What does a caveman do
Without you?
Without you?

The river runs too deep
Let's swim the other way
But if you wanna sleep
We'll swim another day
I'd lift a rock for you
If you'd make me stay
But if I bother you
I'll throw the rock away

Water falls from the walls
But I'll plug the holes for you
If your state is overweight
Then I'll carry you

What does a caveman
What does a caveman do (without you)?
What does a caveman
What does a caveman do
Without you?
Without you?

Nah-nah
Nah-nah

Water falls from the walls
But I'll plug the holes for you
If your state is overweight
Then I'll carry you

What does a caveman
What does a caveman do (without you)?
What does a caveman
What does a caveman do
Without you?
Without you?

Without you?
Without you?
