

Same Day

Itchyworms

I'm staring straight into the sunlight
The sky and clouds are turning grey
A while ago it was the moonlight
It looks like any other day

And nothing changes much for me
I wonder when tomorrow's gonna be

But it's the same day, same day
Everyday
And it's the same day, same day
Everyday
And it's the same day, same day
Everyday
It's alright
It's all in my mind
It's gonna be fine this time

Another day is up at midnight
Tomorrow looks just like today
I'm slowly questioning my eyesight
Didn't I do this yesterday?

Can hardly tell what's in between
While there's a whole world left unseen

But it's the same day, same day
Everyday
And it's the same day, same day
Everyday
And it's the same day, same day
Everyday
It's alright
It's all in my mind
It's gonna be different this time

La la la la la la
La la la la...

And it's the same day, same day
Everyday
It's just the same day, same day
Everyday
And it's the same day, same day
Everyday
It's alright
It's all in my mine
It's gonna be different
It's the same day, dame day
Everyday
It's just the same day, same day
Everyday
And it's the same day, same day
Everyday
It's alright
It's all in my mind
It's gonna be different this time

La la la la la la
La la la la...
