

Waiting for the End to Start

Itchyworms

The end is near, that's what they say
The skies are clear, we're just hoping for another day
Nothing lasts forever
Now's the time to say goodbye

I'm waiting for the end to start
Waiting for the end to start
I want to hear about it
'Cause I'm waiting for the end to start

The world is done
I think you know that
Our hope is gone
Was there any ever doubt of that
I said nothing lasts forever
Now is the time to say goodbye

I'm waiting for the end to start
Waiting for the end to start
See you when I see you
'Cause I'm waiting for the end to start

I'm waiting for the end to start
Waiting for the end to start
Meet me on the other side
'Cause I'm waiting for the end to start
