

# Run Away

ITZY

Weather's good, make-up on fleek  
Rockin' my baddest boots on my way to show up  
Sweep my hair back, lookin' right into your face  
I'ma cut you off clean, blowing kisses goodbye

Toxic dalkomhaetdeon mari ijen dokae  
Saekkamake tabeorin mam  
Akkigo wonhaedo dabi eopseo  
I know you get it, so don't play the hypocrite

Okay, run away, run away, run away from me  
Geomnamyeon naega halge geu angnyeok  
Jeong geuri neon mal mothagetdamyeon  
You can blame it on me  
Run away, run away, run away from me  
We ain't shinin' anymore  
Neona hae garyeonhan juingong I'll take that ugly part

It flew like the cigarette smoke  
Namneun geon eopgetji kkumieotdeon geotcheoreom  
Everything just fades, nothing lasts at the end  
Da baraego dala  
Dusoneuro jwiryeo haedo apeugiman hae  
Guess I should let go, oh-oh, ooh-woah

Run away-ay  
Run away-ay-ay  
Ay-ay, ay-ay

Weather's good, make-up on fleek  
Rockin' my baddest boots on my way to show up  
Sweep my hair back, lookin' right into your face  
I'ma cut you off clean, blowing kisses goodbye

Toxic, those sweet words became painful  
My burnt heart  
Even with love and desire, there's no answer  
I know you get it, so don't play the hypocrite

Okay, run away, run away, run away from me  
If you're afraid, I will be the villain  
If you really can't say it  
You can blame it on me  
Run away, run away, run away from me  
We ain't shinin' anymore  
You can be the pitiful main character, I'll take that ugly part

It flew like the cigarette smoke  
There will be nothing left, as if it was a dream  
Everything just fades, nothing lasts at the end  
It's all faded and worn out  
Even if I try to hold it, it only hurts  
Guess I should let go, oh-oh, ooh-woah

Run away-ay  
Run away-ay-ay  
Ay-ay, ay-ay
