I stretch out big, yeah
I rub my sleepy eyes, yeah
Without waking from my dream
I'm on my way
A feel-good breeze is blowing
Clear my mind, oh-yeah
A usual Friday
A fresh me
Rather than being dramatic
Do what I feel
Both arms raised, spinning, oh, right now (Hey)
Without a filter

Oh, sing it out loud

No matter what anyone says
I won't change who I am
Feel the love, the warmth
Make it stronger
Before I knew it
You just make my whole day

I want more that spice, spice
How do you want it?
Now, like this, it's melting away
If you let loose, it's a whole new world
Do what you think, it's alright
I want more that spice, spice
What are you waiting for?
Get drunk on today, ride, ride
To my tomorrow
There's no need to worry
Do what you think
I just wanna feel that spice now

Gently whisper in my ear
Oops nah, only good things
Just a bit more, come and tease, yeah
We'll be wild until dawn
With a smile
Let's watch the daylight together
If you're not used to it don't worry about it
Everyone's like that at the beginning aren't they?
Believe in myself, on my way
Gonna be better than yesterday
Facing that shining starry sky

No matter the future
I won't change who I am
Break on through, face tomorrow
Turn the lights up
Before I know it
I just make my own day

I want more that spice, spice
How do you want it?
Now, like this, it's melting away
If you let loose, whole new world
Do what you think, it's alright
I want more that spice, spice
What are you waiting for?
Get drunk on today, ride, ride
To my tomorrow
There's no need to worry
Do what you think
I just wanna feel that spice now

Even the anxiety that comes out of nowhere
Oh fly away
If you look up
Negative vibes
Goodbye, let it go, yeah
Like myself, step two

I want more that spice, spice (Ah)
How do you want it? (Ah)

Now, like this, it's melting away (Ah-ah-ah, ah-ah-ah)
If you let loose, whole new world
Do what you think, it's alright (It's alright)
I want more that spice, spice
What are you waiting for?
Get drunk on today, ride, ride (Ooh-oh-ooh)
To my tomorrow (Ooh-oh-ooh)
There's no need to worry (Ooh-oh-ooh)
Do what you think (It's alright)
I just wanna feel that spice now
