

# Trust Me

ITZY

Trust me with your heart  
Trust me?

Flipping through my old diary  
Bursting with dreams that I once had in my heart  
All of my dreams and my heart for you are coming back out of blue  
Tonight I just can't fall asleep  
Remember how we used to be  
So much to share but it's never easy  
All my stories hidden deep inside me  
Today I just wanna tell you whatever I've been holding back

MIDZY neon nal MIDZY (trust me)  
What a gift you give  
The trust that you show me

It's you and I  
Now is the moment for you and I  
(Moment just for you and I)  
More than anyone else tight as the two can be  
(No-one else)  
MIDZY, I know  
Oh, we trust one another  
Always be by my side

Staying next to me, it's you  
Believing in me, it's you  
Don't worry about a thing  
MIDZY, I know  
Oh, we trust one another  
Thank you for trusting in me

I don't know how you get me every time  
Whenever I see you smiling at me it just makes me smile like you  
Oh, I feel love  
Wishing you are feeling what I feel for you  
Even when I'm acting like a child and be free  
(Child and be free)  
You take me just as who I truly am  
Mistakes and all  
Melting my heart with your warming embrace  
I can't ask for anything more, nothing more

MIDZY neon nal MIDZY (trust me)  
What a gift you give  
The trust that you show me

It's you and I  
Now is the moment for you and I  
(Moment just for you and I)  
More than anyone else tight as the two can be  
(No-one else)  
MIDZY, I know  
Oh, we trust one another  
Thank you for trusting in me

Thank you's not enough

No, it's never enough  
For someone who gave me their everything, yeah  
So hear now our song that I'm singing  
Every word is meant to be only for you  
(Words are meant to be only for you)

Oh baby, it's you and I  
Now is the moment for you and I  
(Moment just for you and I)  
More than anyone else tight as the two can be  
(No-one else)  
MIDZY, I know  
Oh, we trust one another  
Always be by my side

Staying next to me, it's you  
Believing in me, it's you  
Don't worry about a thing  
MIDZY, I know  
Oh, we trust one another  
Thank you for trusting in me
