Uh, uh
Ah-ah-ah, ah

Hey, over there, don't talk nonsense, teaching
I'll navigate my own path
I'm not even looking for shortcuts
Walking the difficult road is more meaningful
Worries and concerns always come to me day and night
But in this street, I'll blow them away (Ooh)
From the start, I planned for a long journey
I'll shrug off the burden on my shoulders (off, off, off)

Look, look, look far away like a shinin' star
Look, look, look far away like a shinin' star
Look, look, look far away like a shinin' star
I believe that light exists only when there is darkness

I stopped fearing and got my head on straight
Time is gold, hesitating is a luxury
The way I go is the right way, I can just go as it is
I'm walkin' my way

The end is far off, I'm walkin' my way
I'm walkin' my vay
I'm walkin' my vay
I'm walkin' my vay
Look at me alive (Crazy life)
I'm gonna survive (Crazy life)
I'll never die so don't kill my vibe, so don't kill my vibe
The end is far off, I'm walkin' my way

Ring, ring, the alarm goes off
Yesterday was yesterday, and today is today
The failures of the past are a guide to success
Like stepping on stairs, go to the next level

Look, look, look far away like a shinin' star
Look, look, look far away like a shinin' star
Look, look, look far away like a shinin' star
I believe that light exists only when there is

Darkness, I'll never stop
I am going up to the top
Oh
The world I see is never small
Toward the horizon I see in the distance
I move forward endlessly
I'm walkin' my way

The end is far off, I'm walkin' my way
I'm walkin' my way
I'm walkin' my way
I'm walkin' my way
Look at me alive (Crazy life)
I'm gonna survive (Crazy life)
I'll never die so don't kill my vibe, so don't kill my vibe
The end is far off, I'm walkin' my way
