Don't underestimate me, just a girl  
No way, no way, no way  
If I do my best, shake the world  
My outlook on the world, upside down

Yeah, inside my heart is a fever  
I may not be able to hold it back  
Calm down, calm down, but  
Feels like it's gonna explode  
Boom boom pop

It jolts up suddenly, you can't take control  
Getting so hot, you realized it now, didn't you?  
Temperature up  
Temperature up  
Ah, I'm starting to gradually hear the fire alarm

Hot hot hot hot, It's rising up, the tension  
Soon, the tables will be turned, one after another  
Like a dynamite  
If I catch fire, I can't be stopped

It's like my senses have just been awoken  
Tell me can you feel me blowing up up u-u-u-up

Boom, finally a complete explosion, my voltage up  
I've found a release, power  
Panorama of the red lightning  
You can't escape  
Prepare yourself for the worst, you can't say no  
If you get engulfed by my passion, then

Boom boom pow, blowing up  
Bring my voltage up  
Boom boom pow, burning up  
Bring my voltage up  
Hot damn, towards the way you want, go straight  
Right now, make my eyes sparkle  
I'm aiming for my future  
Ah, I wanna see you all burn up

Hot spot  
That's where I'll be  
By just me walking around, you can feel the heat  
A chilled look in the eyes  
Just one look  
You're pretending not to have seen it  
But you're hooked

Tick tock tick tock, I can hear the timer  
Overflowing passion, no chance of escaping  
Just like a grenade  
If I catch fire, I'll just keep burning

Like I've just shaken off my high fever  
Tell me can you feel me blowing up up u-u-u-up

Boom, finally a complete explosion, my voltage up

I've found an exit, power  
Panorama of the red lightning  
You can't escape  
Prepare yourself for the worst, you can't say no  
If you get engulfed by my passion

Hot damn, towards the way you want, go straight  
Go forward, at the speed of light  
Always, I've decided everything by myself, so it's OK  
Hot damn, if you hesitate and stop, it's a waste of time  
I'm aiming for my future  
Ah, I wanna see you all burn up

Wake up call  
It's time to awaken my instincts  
With my eyes open wide  
I'll sear this in  
I'll put the world on fire

Boom, I'll flare up high, my voltage up  
An alpha that drags the surroundings into this  
Even a single minute, a single second is critical  
You can't cool me  
I'm the type that can't be cooled once I heat up, no no  
Scorching hot world  
If you get pulled in, then

Boom boom pow, blowing up  
Bring my voltage up  
Boom boom pow, burning up  
Bring my voltage up  
Hot damn  
An impact that can even sway the world  
I'm aiming for my future  
Ah, I wanna see you all burn up
