Our lives have tilted as we started resembling each other  
The moon is getting filled up with our wishes  
There are unfinished words inside the parentheses  
And now finally, mm mm mm...

My anchor wasn't reaching anywhere

You were like an island I could never go to  
I was lost  
But now finally, mm mm mm...

If if this doesn't get recorded  
I will remember everything

Just wait  
When we finally meet  
If we can stand outside the borders of time  
Without stepping on the past  
I will dance till I run out of breath

Even during the day, my outside wasn't bright  
The other half was the endless night  
How about you? Are you the same as me?  
My heart ached from not knowing

Let's go faraway for our freedom  
In a place where tomorrow can't find us  
Let's happily meet  
You don't need to find me right away  
Because I will recognize you

Just wait  
When we finally meet  
If we can stand outside the borders of time  
Without stepping on the past  
I will dance till I run out of breath

Finally  
I'm on my way to meet the reason of my wait  
I haven't forgotten, even in my dreams  
I couldn't forget, even in my sleep  
I will call out your name

Just wait  
I'm going to find you, who I lost  
Enduring through the tangled time  
With my feet that won't chase after the future  
I will run till I run out of breath

After this long, long narrative  
This will be written as the first line  
Fear is nothing to me

Our lives have overlapped with each other  
The moon is quietly looking down on us  
There is still so much I want to tell you  
Look at us, it's like we're one
