Hush hush baby, push me oh baby
0 00 000 0000
Hush hush baby, cherish me baby

Oh darling, don't cross it
The distance between our lips is still 50cm
Stop trying to tempt the innocent me
With sweet and obvious words
Love, this love will be perfect
Largo, adagio, don't rush
Slowly, baby slowly, very slow, with a slow tempo

Oh darling, don't cross it
The distance between our lips is still 50cm
With honest words,
Until I can feel
Your pure heart
The distance is 50 cm

Love, this love will be perfect
Largo, adagio, don't rush
Slowly, baby slowly, very slow,
With a slow tempo

Our love, this love will be electrifying
Love ya, baby love ya
When my red lower lip touches your top lip

Please don't cross it
The distance between our lips is still 50cm
Don't make me into
A common girl
With sweet and obvious words
Save me for a little longer
The distance between our lips is still 50cm

Hush hush baby, push me oh baby
Please listen to this small request
Hush hush baby, cherish me baby
