Flowers are withering in between the mountains and meadows  
Flowers are withering just like tears  
In this place where winter passed through  
In this place where only the wind remains  
Flowers are withering, flowers are withering  
In between the mountains and meadows

Flowers are blooming in between the mountains and meadows  
Flowers are blooming just like tears  
In this place where spring has come again  
In this place where you won't come to  
Flowers are blooming, flowers are blooming  
In between the mountains and meadows

Flowers are blooming in between the mountains and meadows  
Flowers are blooming just like tears
