Hurry up young blood the moon is getting full
Holding onto a dandelion
Love floats around the night dizzily
Fly away and softly come true

Feeling like floating up
Through the tense darkness
We won't be afraid
Though I may stumble in this gigantic weightlessness

Over our youthful selves
A big strawberry moon One scoop
Will you let me care you eh-oh

Up across the wind
Flying high feels so cool
How could life be more perfect ooh

It's a once in a lifetime kind of luck
My heartbeat resonates through my body

Oh I would gladly be lost in the night
If only I can be lost with you

Holding each other's hands
From end to end, and up and down this infinity
With a broken gate
We will leave for a journey in the air

Over our youthful selves
A big strawberry moon One scoop
Will you let me care you eh-oh

Up across the wind
Flying high feels so cool
How could life be more perfect ooh

How amazing
Will such a dreamy moment come again?
(Will there be more)
Perhaps it's all about the night
We first uncovered, Let's fly over it

Over our youthful selves
A big strawberry moon One scoop
How does it feel to own the world eh-oh

Up across the wind
Flying high feels so cool
How could life be more perfect ooh
