

Martyrium

Ivanhoe

Hate is the same
Fallen
Reaching out to never never land
Love is the pain
Sorrow
Forcing you and washing bleeding hands
No one to blame
Fallen
She's the girl who loves eternally
Locked in the cell
Freightend
Because his death means her end (end, end)
End (end, end)
Two souls on the edge of time
No more to become in line
Weeping through the darkest night
Raping my mind
Martyrium
Fallen from the sky
Martyrium
Crying in the night
Martyrium
Never ending trauma
Martyrium
Trying to survive
Martyrium
Loving for some light
Martyrium
No one will believe it
Ah, what I feel
Ah, what you want that I feel
Ah, let me see
Aha, what I am
Ah, three zero nine six days
Ah, what you want I will be
Ah, whatever you need
Aha, please set me free
Two souls on the edge of time
No more to become in line
Weeping through the darkest night
Raping my mind
Martyrium
Fallen from the sky
Martyrium
Crying in the night
Martyrium
Never ending trauma
Martyrium
Trying to survive
Martyrium
Loving for some light
Matyrium
No one will believe it
Martyrium
Martyrium
Martyrium
Never ending trauma

Martyrium
