

In the now
Time to live
Come and go
The truth within
Where s the end
No more change
I don't repent
None of these words
Far from here
Far from now
A world of descent
I want to protect
No evidence
So alter your fear
The world is unconscious
Blaming the wrong ones
We know this is beyond the void of sanity
Turn to me and forget this fake fatality
Yeah
Truth is always in my heart
You will always be my god
Seeking truth you always find
Heaven's always on my mind
We know this is beyond the void of sanity
Turn to me and forget this fake fatality
Who will break the bounds and shows humanity
How can we reach the sword of clarity
