

# Supernova Love

IVE

Oh babe, I need the kind of love  
A supernova glowing in the dark  
Forever I wished upon a star  
Then you came over, occupied my heart  
Occupied my heart

Touch my body, skin on skin  
Give me every little bit of your love  
Don't you hold back on me, go all in  
I been waitin' for this moment too long

One taste and I'm fallin deep  
Caught up in your energy  
Never let me go

Oh babe, I need the kind of love  
A supernova glowing in the dark  
Forever I wished upon a star  
Then you came over, occupied my heart  
Occupied my heart (La da di da)

La di da di da  
La di da di da  
La di da di da  
Di da di da  
La di da di da  
La di da di da  
La di da di da  
(La di da di da)

Got me how you want me, lose or win  
Giving every little bit of my trust  
Take me to the stars on paper wings  
And we'll fly until we reach the sun

One kiss and I'm in a dream  
I'm lost in your melody  
Oh it feels like heaven when you take it slow  
One taste and I'm falling deep  
Caught up in your energy  
Never let me go

Oh babe, I need the kind of love  
A supernova glowing in the dark  
Forever I wished upon a star  
Then you came over, occupied my heart  
Occupied my heart

Every time I look in your eyes  
I see a million stars collide  
It's only you that I see in the sky  
When I pray to the heavens at night  
You the light  
Supernova love, never give it up in your heart  
Give me that love, give me that heart, yeah  
Through the dark you the light from above  
You're the super super super supernova love

Give me your love, give me the stars  
Baby, come occupy my heart  
Give me your love, give me the stars  
Baby, come occupy my heart

Oh babe, I need the kind of love  
A supernova glowing in the dark  
Forever I wished upon a star  
Then you came over, occupied my heart  
Occupied my heart
