Bravery

Ivoryline

We've been here far too long
And everything's gone wrong

Shake it off, shake it off
We can talk this through
And just wait it out, wait it out
Let in something new

Had you been waiting long
To tell us you were gone?
You'll be gone for so long

We've been here far too long
And everything's gone wrong
And just say goodbye and show some bravery
And just say goodbye, try not to make a scene

And just speak your mind
Speak your mind to cut this tension through
And just let it out, let it out
Let's hear what's best for you

Had you been waiting long
To tell us you were gone for so long?

We've been here far too long
And everything's gone wrong
And just say goodbye and show some bravery
And just say goodbye, try not to make a scene

We know, we know nothing ever stays the same
We know, we know how to deal with change
We know all about it, we know all about it, we know all about i
t

We've been here far too long
And everything's gone wrong
And just say goodbye and show some bravery
And just say goodbye, try not to make a scene

We've been here far too long
And everything's gone wrong
And just say goodbye and show some bravery
Just say goodbye and show some bravery
Just say goodbye and show some bravery
