

Apartment No. 2

Ivy Adara

Daddy's always working
Momma's always high
Got a lot of problems
Never asking why

In between the fights
They swear they really try
But does trying mean a thing
If you never really fly

Daddy's got a drunk hand
Momma's on the couch
Pretends she doesn't hear him
Coming for her now

You turn up the TV
And take me to my room
Put your hands over my ears
And tell me it'll be over soon

The sound of your voice
It drowns out the noise all night
The sound of your voice
Always makes me feel all right

Oh we'll be run, run running away
I'm right with a dark side if I got you
Run, run running away
We stray on the far side chasing the moon
They'll be coming after us, we'll be running faster, love
They'll be coming after us, we'll be running fast
I know, I know I'll be safe
The moment I'm with you
In apartment no. 2

I get frustrated
Don't know what to do
I wish we could escape
And I wish we didn't have to

We could get our own place
Yeah just me and you
I know that we're kind of young
But we could leave if we wanted to

The sound of your voice
It drowns out the noise all night
The sound of your voice
Always makes me feel alright

Oh we'll be run, run running away
I'm right with a dark side if I got you
Run, run running away
We stray on the far side chasing the moon
They'll be coming after us, we'll be running faster, love
They'll be coming after us, we'll be running fast
I know, I know I'll be safe

The moment I'm with you
In apartment no. 2

If I got you by my side I'm okay
We're gonna make it
If I got you by my side
Every day, every day

If I got you by my side I'm okay
We're gonna make it
If I got you by my side
Every day, every day
We'll be okay
