Like to get to know you but I don't have time.
Running around the city like I lost my mind.
Trying to find a taxi, trying to get back home.
Got to find a minute just to be alone.

Wish that I could call you but I'm always gone.
Hate to leave a message cause it takes too long.
Hope it doesn't matter, hope you'll understand.
Got too much to do you know I can't make plans.

Can you believe
I have to leave
We've got to find some time to get together
How's never, How's never, How's never

Dada dada dada daa

Someone came in in the pouring rain.
All I want to do is empty out my brain.
Someone calls my name but I too tired to speak.
Maybe friends will come in another week.

Dada dada dada daa
Dada dada dada daa

Can you believe
I have to leave
We've got to find some time to get together
How's never, How's never, How's never
