

Wasting Time

Ivy

We don't know where the years go
Can't get back on with the show
All I know is I'm all alone
Can't look back, there's no going home
Long ago, we were flying
Down the road, feels like dying
Even though I keep trying
Wasting time, we can't fight it

You and I are a waste of time
The life we made had to say goodbye
Don't be sad when you hit the light
Give it up, we're just wasting time

I don't know where the years go
Disappear through my window
All I know is we're all alone
One way, there's no going home
Long ago, we were high and
Every road was just winding
Even though I keep trying
Test of time, we can't fight it

You and I are a waste of time
The life we made had to say goodbye
Don't be sad when you hit the light
Give it up, we're just wasting time

We've been walking through the weeds for way too long
Can't get what I need
And we've been out of harmony for way too long
It brought me to my knees

You and I are a waste of time
The life we made had to say goodbye
Don't be sad when you hit the light
Give it up, we're just wasting time

You and I are a waste of time
The life we made had to say goodbye
Don't be sad when you hit the light
Give it up, we're just wasting time
